

Senior Software Developer

Barcelona, Spain

My name is Wander González Paulino, and I am a 28 years old Software Developer. I specialize in the development of mobile applications, and I have experience of the business area and ERP software.

I am very passionate about my work and technology, and I am very keen to work in development teams and learn from my colleagues. My goal as a programmer is to give the best of me to the company and grow professionally.

WORK EXPERIENCE

OCT 2016
CURRENT ↓

Software Developer at Efficens

My role on the team is analyst-developer, evaluating the client's needs and designing solutions.

Programming Languages: 4GL Genero, Javascript, Java

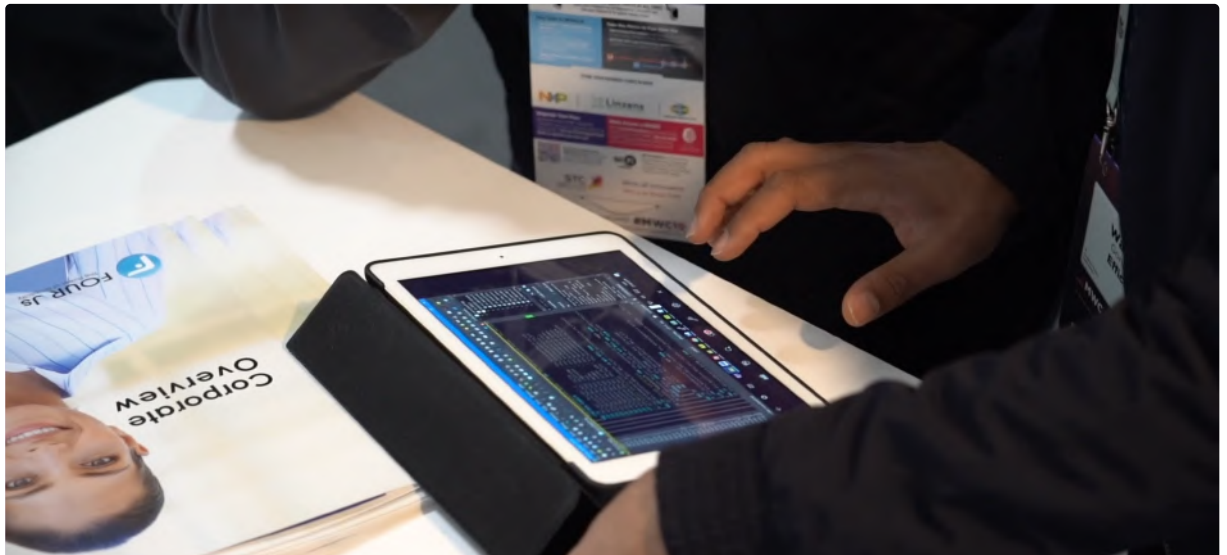

Development Tools: Linux Server, Oracle, Visual Studio, SoapUI/Postman, FCM/APNs & Others

MOBILE:

- Design multiplatform applications adapted to the client's needs
- Bi-directional synchronization through SOAP&REST + sqlite to Oracle
- Transition from 4GL Genero 3 to 4
- Google Map Services, Firebase / APNs
